Student i>Clicker Registration

For students using i>Clicker’s in Canvas, you must register your i>Clicker within a course in Canvas. When you register once in Canvas, your i>Clicker will be registered for all courses taught in Canvas.

Please use either FireFox or Chrome when registering your iClicker.

1. Log in to Canvas at canvas.colostate.edu
2. Enter your eName and ePassword
3. Select a course that you will be using i>Clicker in by navigating over the Courses tab.
   
4. On the left side, click on the iClicker Index Page.
   a. NOTE: If you do not see the iClicker Index Page on the left side in your course, contact your Instructor. Also, this may not be in the exact location as shown on the left.

5. If you do receive a Secure Connection error after clicking on the iClicker Index Page, please try clicking on the iClicker Index Page again

If you need assistance with registration, please contact CanvasHelp@colostate.edu
6. Enter in the i>Clicker remote ID.

   a. The ID is the 8-character code below the barcode

   *Where do I find my remote ID?*

   Your i>clicker remote ID is printed on a sticker located on the back of your remote. The ID is the 8-character code below the barcode. Newer original i>clicker remotes have a secondary ID location behind the battery compartment and i>clicker 2 remotes display the ID upon power up. The remote ID will only contain letters A-F and numbers 0-9.

   ![i>clicker remote ID image]

7. If the registration was successful, you will see the remote ID, along with the date registered below.
